

## **Innovation Agreement**

The Innovation Agreement is declaration of intent that renders visible and formalises the fact that the company and INCUBA Science Park will work to make the science park a place of:

- entrepreneurial spirit, openness and curiosity
- strong motivation to move companies forwards towards success and growth
- sharing knowledge and experience

**With the Innovation Agreement, the INCUBA Science Park declares that it will:**

- focus on companies that are innovative, high-tech, research-based or have a clear prospect of growth
- endeavour to provide the high-quality services and advice that the companies need
- develop and optimise its network of investors, consultants, established companies, public authorities, etc. that may benefit the companies
- initiate network groups, professional forums, social events, after-work meetings, etc.
- assign mentors, board members, etc.
- negotiate discounts and benefits for companies at the science park
- promote the companies that are based at the science park
- work to make the INCUBA Science Park an ever-better place to start up and run a company

**With the Innovation Agreement, the Company declares that it will:**

- contribute to relevant network groups, professional forums, social events, after-work meetings, etc. that are involved in creating synergies and contacts among the companies at the INCUBA Science Park
- talk about its company and share its experience with others, e.g. as introductory speakers or mentors for new companies at the INCUBA Science Park
- contribute to making the INCUBA Science Park an ever-better place to start up and run a company
- inform the management of the INCUBA Science Park about the company's development plans and strategy, so that both parties can benefit from each other as much as possible
- mention the INCUBA Science Park and other companies at the INCUBA Science Park in relevant contexts
- be willing to visualize the company on INCUBA Science Park's website
